	Examiner Lori L. Coletta	Art Unit 3612	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the **rear roof part is disposed between said intermediate roof part and the front roof part which is disposed on top** (claim 17) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character “**134**” has been used to designate both the **angled link** (page 10, line 17) and **guide arm** (page 10, lines 19 and 22). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description:

Reference characters **118** in Figures 7, 8 and 11 and **138** in Figure 9 are not mentioned in the description.

Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled “Replacement Sheet” in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the

Art Unit: 3612

applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

4. The disclosure is objected to because of the following informalities:

“an arrow 48” (page 8, line 19) needs to be changed to --an arrow 148--.

“intermediate roof part 3” needs to be changed to --intermediate roof part 103--.

“In te lower” (page 9, line 8) needs to be changed to --In the lower--.

Appropriate correction is required.

Claim Objections

5. Claims 1-18 are objected to because of the following informalities:

Regarding claim 1, “an interior vehicle space” (lines 5 and 6) needs to be changed to --the interior vehicle space--. “they are *disposed removed* from said interior vehicle space” (lines 6 and 7) is awkward. “said front– and respectively rear roof parts” (line 14) needs to be changed to --said front and rear roof parts--. “(102, 104” (line 31) needs to be changed to --(102, 104)--.

Regarding claim 5, “said pivot arm (119)” (line 2) needs to be changed to --said pivot arm (117)--.

Regarding claim 9, “a guide arm (160)” (line 4) needs to be changed to --a guide arm (140)--.

Appropriate correction is required.

Allowable Subject Matter

6. Claims 1-18 are allowed.

7. The following is a statement of reasons for the indication of allowable subject matter:

The recitations of the specific features of the hardtop vehicle roof in claim 1 including especially the construction of the operating link means include a pivot arm pivotally supported on the intermediate roof part and operating links connected to the actuating link structures for moving the front and rear roof parts relative to the intermediate roof part is not taught nor is fairly suggested by the prior art of record.

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The cited references show several other hardtop vehicle roofs similar to that of the current invention.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lori L. Coletta whose telephone number is (703) 306-4614. The examiner can normally be reached on Monday-Friday 6:00am-2:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Glenn Dayoan can be reached on (703) 308-3102. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
